IITS SHARING ALABAMA'S EDUCATIONAL RESOURCES

Established in 1991, IITS is Alabama's higher education interactive telepresence network providing connection for network members to the world via the latest in videoconferencing technology.

VIDEOCONFERENCING SERVICES

- ◆ Free to all faculty and staff.
- ◆ Technical assistance during event.
- ◆ Test connections in advance of event.
- ◆ Room Design.
- ◆ Equipment specifications.
- ◆ Grant assistance.

Examples of uses: degree programs, continuing education classes, dissertations, depositions, interviews and meetings.

TECHNOLOGY & CAPABILITY

- ◆ Multipoint videoconferencing services—(Bridging).
Videoconferencing equipment (codec). Bridging solution for providing a common platform to different videoconferencing endpoints.
- ◆ RealPresence Desktop—Desktops and laptops (PCs and MACs).
Application-based option. Install FREE software, sign-in and join your conference.
- ◆ RealPresence Web Suite —Cloud access video conferencing via web browser. Mobile devices (iPads, iPhones and Androids). Allows users to schedule and join a secure videoconferencing meeting
- ◆ Zoom—Cloud access videoconferencing. Self scheduling and monitoring. Integrates with Kaltura, Canvas and Blackboard.
- ◆ Video live-streaming, recording and on-demand access services.
